

DC-295/Benning Road Interchange IMR Build Alternatives A and B: Differences

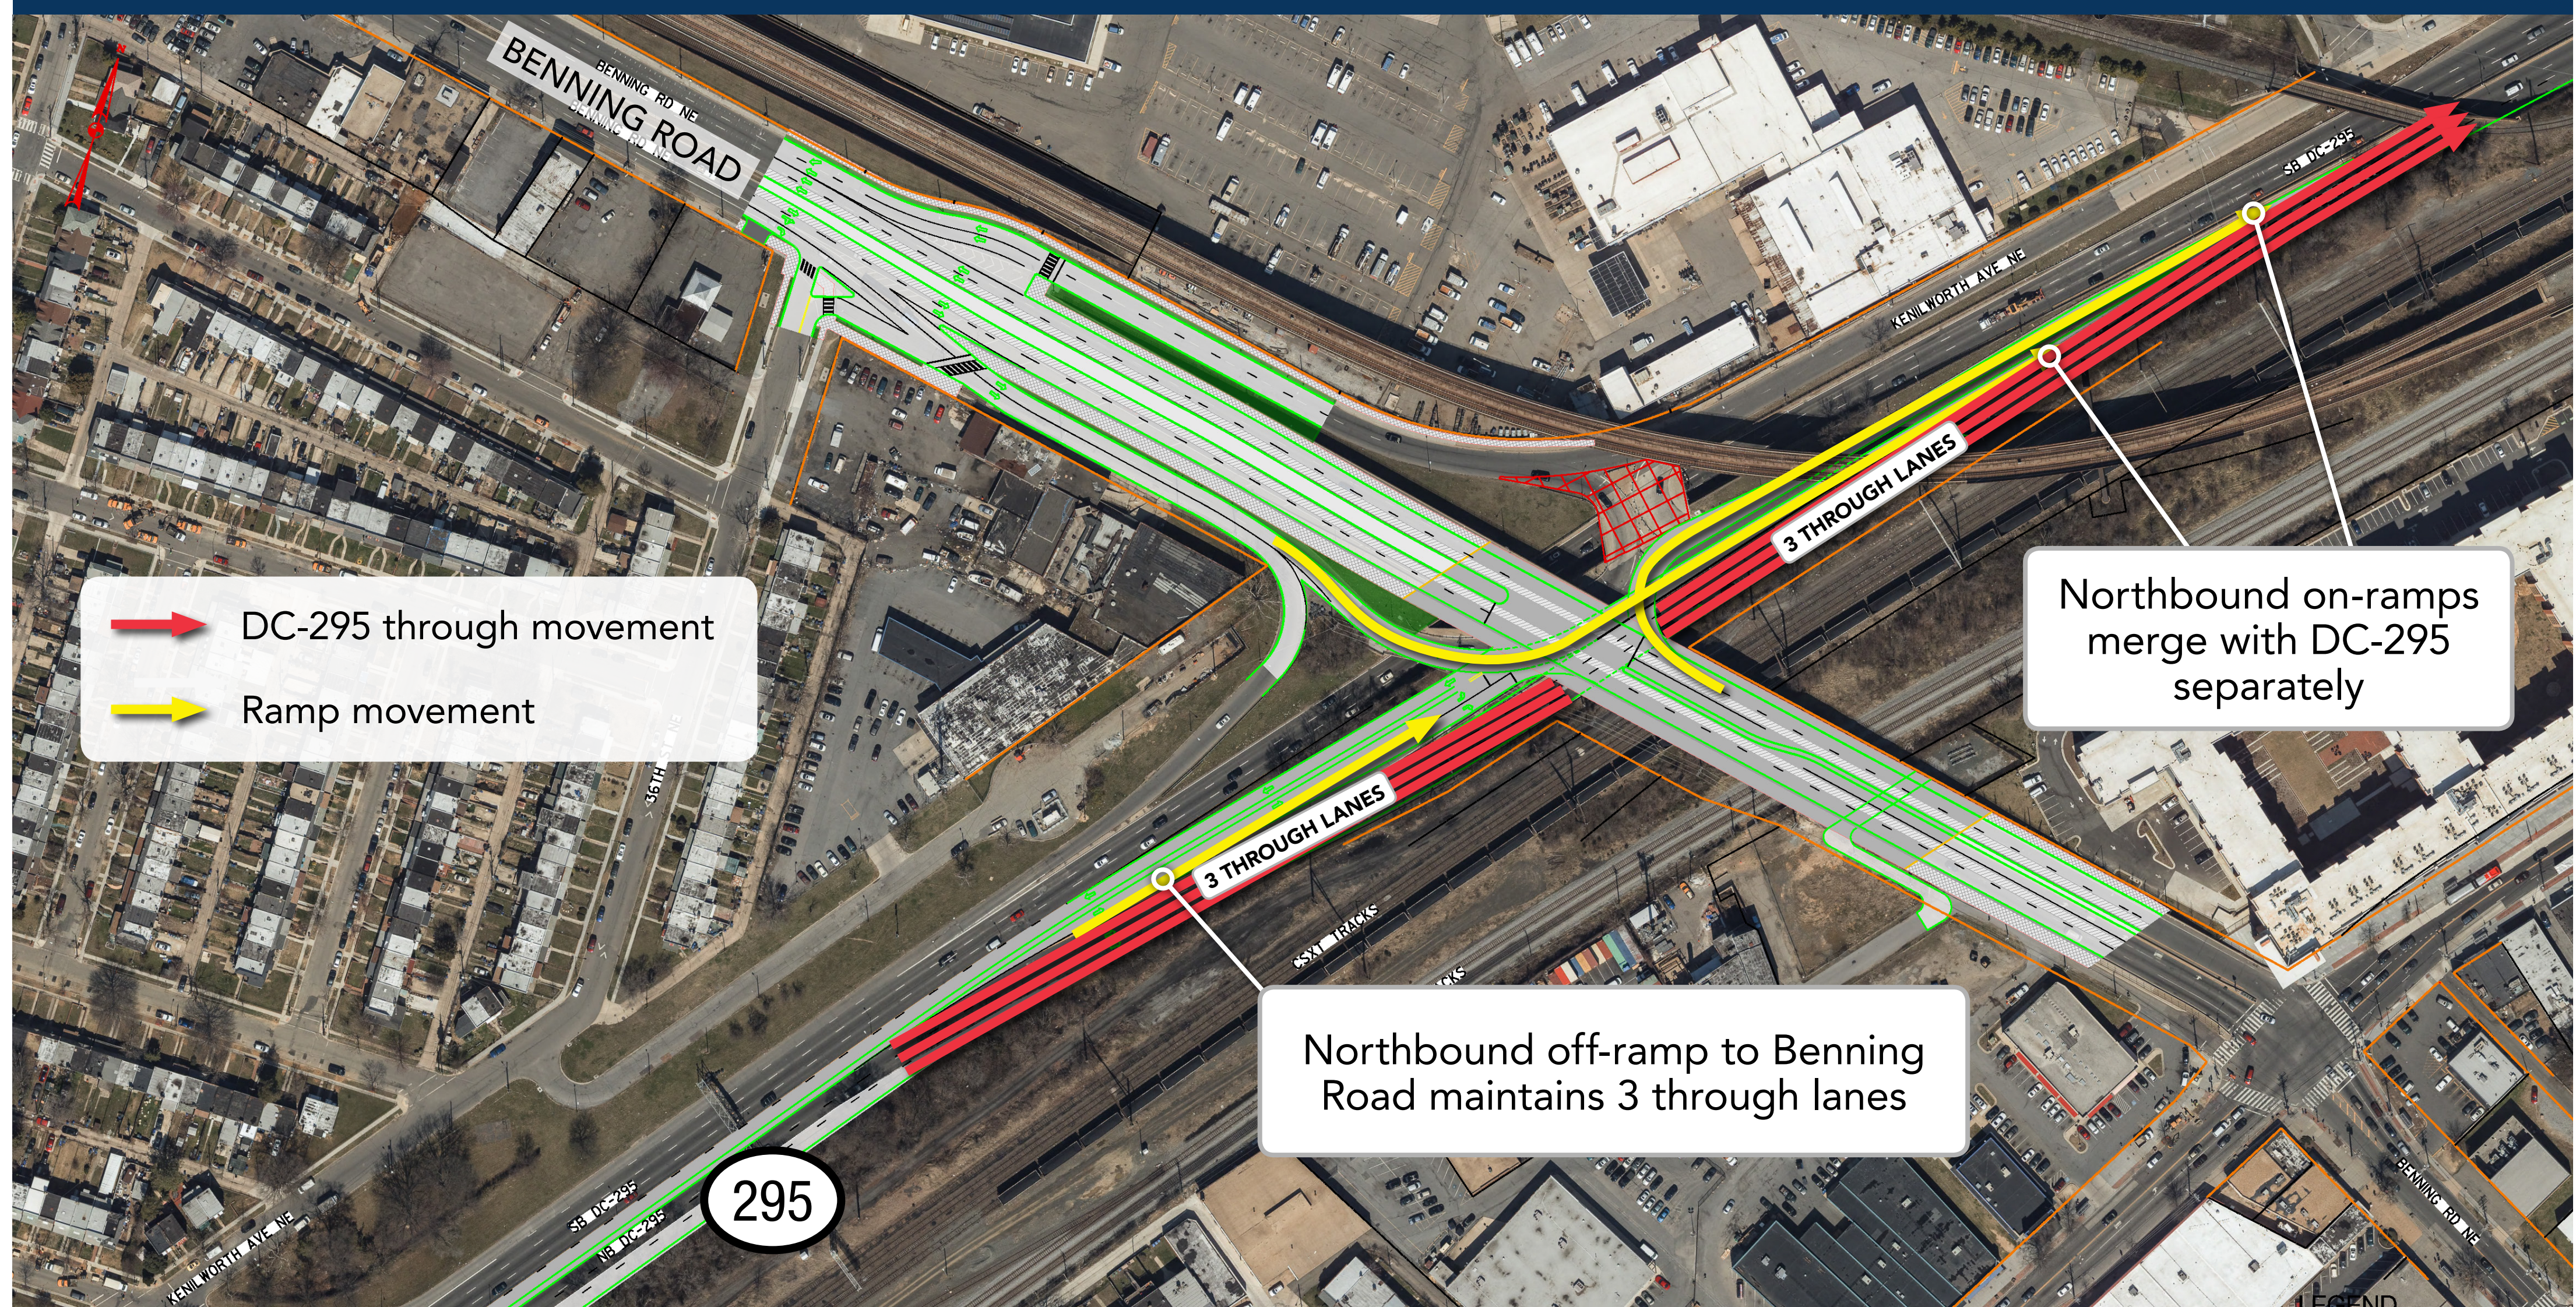

Build Alternative A (Concept 7C) and Alternative B (Concept 8D) differ by:

- (1) the number of northbound DC-295 lanes carried through the interchange
- (2) the merging patterns of the northbound DC-295 on-ramps.

See additional IMR
Build Alternatives A
and B board for what they
have in common

Alternative A (Concept 7C)

Alternative B (Concept 8D)
