

D AREA OF POTENTIAL EFFECTS FOR CULTURAL RESOURCES

In accordance with Section 106 of the National Historic Preservation Act, the Area of Potential Effects (APE) for cultural resources was determined in consultation with the DC State Historic Preservation Office. The APE represents the geographic area or areas within which an undertaking could cause changes in the character or use of historic properties, if any such exists.

The APE for archeological and architectural resources is shown on the following sheets. Approximate boundaries for National Park Service lands within or adjacent to the APE are shown on the same sheets.
