J PUBLIC MEETING TRANSCRIPTS

The following is a record of the oral comments received during the two public information meetings.

Two individuals provided testimony at the July 13, 2011 scoping meeting and six individuals provided testimony at the November 8, 2012 alternatives meeting. Their statements are presented in this appendix.

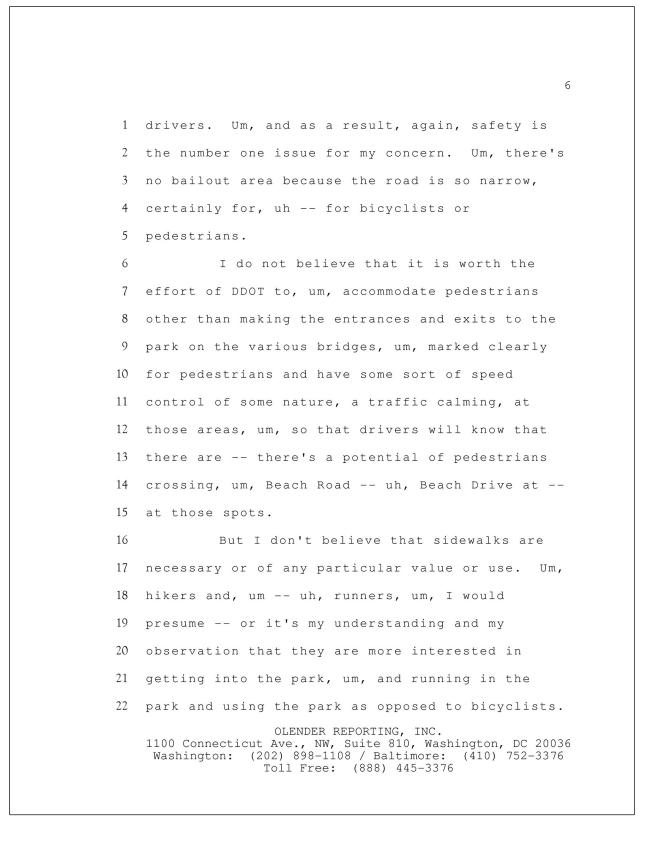

1 PUBLIC SCOPING MEETING BROAD BRANCH ROAD, N.W. CHEVY CHASE COMMUNITY CENTER 5601 CONNECTICUT AVENUE, N.W. WASHINGTON, DC 20015 6:30 p.m. through 8:30 p.m. July 13, 2011 OLENDER REPORTING, INC. 1100 Connecticut Ave., NW, Suite 810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

1
                   PROCEEDINGS
2
             MR. WHITLE: And what do you want with
3
   that?
             UNIDENTIFIED SPEAKER 1: If it was a bike
4
5
   path --
6
             UNIDENTIFIED SPEAKER 2: Um, I guess
7
   your, uh, address --
8
             MR. WHITLE: So I'll give you my e-mail.
9
    How's that?
10
             UNIDENTIFIED SPEAKER 2: Whatever you --
11
             MR. WHITLE: Tom9754@verizon.net. And an
12
   ANC commissioner 3-F.
             I have been a resident of this area for
13
   about 20 years, ridden this area of Broad Branch
14
15
   Road often during that period, am very pleased
   with the initiative to make the corrections
16
17
   necessary to, um, make the road truly useable and
18
   safe.
19
             And I would particularly be concerned
20
   that there be enough space in the roadway and
   cart way to include a bicycle lane so that there
21
22
   may be a movement of people by that means as well
                    OLENDER REPORTING, INC.

4
1 as walkers, who at this time have no room on the
2
   road.
             Um, I think that an accelerated effort
3
   like this is very commendable, but I would be
4
5
   concerned about people who don't want any change,
6
   number one. And, number two, who are only
   focusing on the speed of traffic. And the fact
7
   is that the speed of traffic must be corrected
8
9
   and reduced. Too many people driving on that
10
   road as if we were part of the Swiss Alps. So I
   feel that this is a great initiative, but we
11
12
   better not just succumb to the don't do it NIMBY
13
   people and have a very dangerous situation
   continue. It's dangerous now. It must be
14
15
   corrected.
             And I think that's about -- that'll do
16
17
   it. Okay?
             MR. ROSENBERG: What would you like me --
18
19
          Sure.
   okay.
20
             Okay. My name is Eric Rosenberg, E-R-I-
   C, R-O-S-E-N-B-E-R-G. And I live at 3511
21
22
  Patterson Street, N.W. in D.C. I'm speaking as a

```

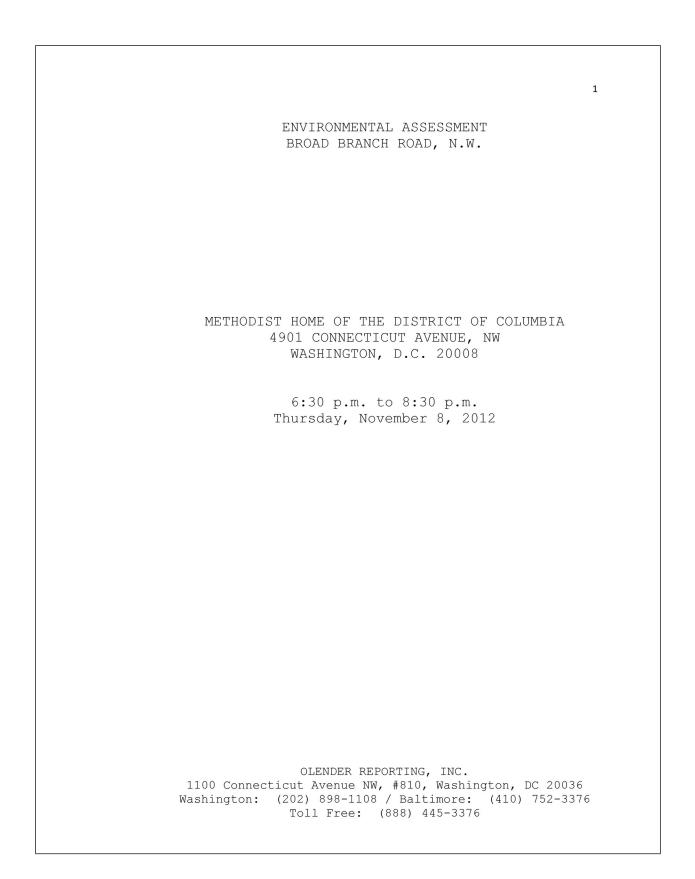

5 1 private citizen but also I'm a member of the D.C. 2 Bicycle Advisory Council, uh, representing Michael Brown who is the at large City Council 3 Member, but living in the neighborhood, I'm 4 5 obviously concerned on the personal level. 6 My issue with this, um, specific project 7 is, uh -- my concerns, rather, are, uh, with regards to the safety of, uh, bicyclists and 8 9 others who use the road. The road is in bad 10 shape and is in consistently bad shape. Uh, there are drainage issues, erosion issues, um, 11 12 that make the road unsafe, uh, for both drivers and for others, uh, specifically bicyclists. 13 Um, there are a lot of -- the roads, uh -14 15 - the nature of the road in terms of its -- um, its route has a lot of blind spots so that when 16 you're traveling, you don't necessarily see 17 traffic coming towards you until the last moment. 18 19 And that's unsafe for everyone. 20 Speed is an issue. When the road was repaid approximately two years ago, um, the speed 21 22 -- the average speed appeared to go up for OLENDER REPORTING, INC. 1100 Connecticut Ave., NW, Suite 810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

7 1 Um, the trails that are on the inside of the park, um, are -- because they're somewhat 2 hidden, they are not well maintained. Certainly, 3 um, there's a lot of debris. Um, they're not --4 5 and when it gets wet, it gets very dangerous with 6 leaves and all of that. 7 So, uh, my, uh, hope is that the 8 bicyclists will be addressed, um, in the 9 redevelopment of this road. I would -- I would 10 hope that a bike lane would be installed, um, on the west side of the park. Maybe you could -- on 11 12 the west side of the road, rather. Maybe you could flatten out some of the 13 curves. That would be great. Another suggestion 14 15 would be to put flex posts, which, uh, are similar to the ones that are on Pennsylvania 16 17 Avenue, as a demarcation between the traffic -the automobile traffic and the bicycle traffic. 18 19 It doesn't have to be everywhere, but certainly 20 with the corners and the intersection, uh, or the 21 curves that are significant that they would be there so that the -- that the cars who tend to 22 OLENDER REPORTING, INC. 1100 Connecticut Ave., NW, Suite 810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

```
8
1 drift in these narrow roads over the center
   median -- not that they would go all the way on
2
   the other side, but it would give some sense of
3
   protection to a bicyclist who will not otherwise
4
5
   ride on that, um -- in that area if there's no
6
   sense of -- a feeling of safety there.
7
             Um, again, speed is -- is -- is an issue,
8
   and there should be some way to do some traffic
9
   calming, be it straightening out the road, which
10
   I don't believe is practical, or speed humps or
   bumps, or something, uh, to slow down the
11
12
   traffic.
13
             Um, the intersections tend to be, uh,
   pretty precarious -- a lot of accidents appear to
14
15
   happen on the 27th Street intersection because
   there are so few of them. And, again, there are
16
   a lot of blind spots there. Um, and it's
17
   relatively dark, uh, most of the time. It's not
18
19
   brightly lit. And I don't believe it should be
20
   brightly lit, um, but again, to use what
  resources are available and the space that's
21
22
  available would make sense.

```

9 1 Again, the idea of a bike -- a bike lane 2 with flex posts in either the entire area or in an appropriate area I think would work quite 3 well. Um, on the straighter parts maybe not 4 because that's where it's -- since the bike lane 5 6 would -- I do not believe is big enough to 7 accommodate, uh, bicycle traffic in both directions simultaneously -- someone would have 8 9 to, you know, give way to the other -- give the 10 right-of-way to the other bicyclists, uh, in the other direction. And if you have flex posts all 11 12 the way around, um, if they're too close together, there's no place for the -- for one of 13 them -- you know, one to go and the other to 14 15 pass. So, those are my comments. Thank you 16 17 very much. 18 (Conclusion of public comments.) 19 20 21 22 OLENDER REPORTING, INC. 1100 Connecticut Ave., NW, Suite 810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

PROCEEDINGS 1 MR. MCGRATH: Dorn McGrath, 2710 2 Brandywine, Northwest, Washington, D.C. 3 THE REPORTER: Feel free to proceed. 4 MR. MCGRATH: Okay. I will proceed to 5 declare the engineers supervising this project 6 are very helpful. They are not the same ones 7 that represent Anacostia and I have yet to be 8 informed about any hearing in Anacostia 9 concerning the Historic Preservation Act, section 10 106. And I am the former chairman of the 11 Committee of 100 and also the designated person 12 to receive such information from the DDOT with 13 respect to section 106. 14 And I have received nothing. I have had 15 nothing for a year from the MDOZP (ph) concerning 16 this project, their project in Anacostia, street 17 car project. Not a road widening like this is. 18 And this is another group of engineers 19 much more suitable to the task they have. 20 [WHEREUPON, THE STATEMENT OF DORN MCGRATH WAS 21 22 CONCLUDED] OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

MS. RAY: Mary Beth Ray. 4526 29th 1 Street, Northwest, Washington, D.C. 20008. 2 THE REPORTER: Please proceed. 3 MS. RAY: Oh, okay. So I'll be brief. 4 One of the reasons that I and my family chose to 5 live in Forest Hills is because of the proximity 6 to Rock Creek Park. And it's extremely 7 frustrating because there's no save access for 8 pedestrians or cyclists to be able to get from 9 our house into the park. 10 So, I was really excited to see 11 alternatives three and four, in particular 12 because it would provide safe access into the 13 park. 14 And so, we would just really encourage 15 the Park Service and DDOT to do whatever it takes 16 to construct both a sidewalk and a bicycle lane, 17 if possible and if not both a cycling lane and a 18 sidewalk then at the very least, a wide sidewalk 19 that could be used for either cycling or 20 pedestrians so that people across the area can 21 enjoy one of the most beautiful parks in the 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

4

5 country. 1 [WHEREUPON, THE STATEMENT OF MARY BETH RAY WAS 2 CONCLUDED] 3 MR. THOMAS: Samuel Thomas. 4600 4 Connecticut, apartment number 512, 5 THE REPORTER: The zip code? 6 MR. THOMAS: It's 20008. I'm on? Okay. 7 I just wanted to start out by saying I've been 8 planning to come to this meeting since I heard 9 about it and coincidentally a friend of mine from 10 college, Gelseigh Karl-Cannon was killed, struck 11 by a motorist riding her bicycle yesterday in 12 Denver, Colorado. That further energized me to 13 come out here and emphasize how critically 14 important bicycle and pedestrian safety in our 15 neighborhoods is. 16 Broad Branch Road, in particular, I'm 17 quite familiar with. I do not own a car. My 18 transportation is all by foot and by bicycle. 19 It's a very narrow and windy road. Of course I 20 would like to see bicycle lanes, or at least 21 sharrow markings put on the road. 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

Even more important than bicycle safety 1 on Broad Branch, I believe, is pedestrian safety. 2 It's located in a residential neighborhood and 3 next to a national park that gets frequent use by 4 urban citizens in Washington, D.C. And in 5 particular, the Soapstone Valley hiking trail 6 which is supposed to connect to the Rock Creek 7 hiking trail system, dumps pedestrians, 8 currently, right onto Broad Branch Road in a very 9 narrow and windy spot where they have to walk 10 along the roadway with no shoulder to connect to 11 the other trails. 12 I think it's really critical that DDOT 13 and the city take responsibility and make this a 14 safe place for pedestrians so they feel 15 encouraged to use the facilities. 16 So, please consider the options three and 17 four that include sidewalks along the length of 18 Broad Branch Road. They're very important and 19 bicycle lanes would be an improvement as well. 20 Thank you. 21 22 [WHEREUPON, THE STATEMENT OF SAMUEL THOMAS WAS OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

6

7 CONCLUDED] 1 MR. KLOSSNER: You ready? My name is 2 Christian Klossner. I live at 4501 Connecticut 3 Avenue, Washington, D.C., 2008. 4 My primary concern is a save connection 5 from the base of Soapstone Valley to beach drive. 6 I live at the head of Soapstone Valley. I enjoy 7 hiking there with my six year old son. 8 The connection to the Pierce Mill area 9 and the parking lot or other trails is incredibly 10 unsafe and to be quite frank, my wife limits my 11 going there with my son. 12 My secondary concern is the usability 13 between Brandywine and Beach Drive for bicycles. 14 It is the easiest way into the park from my 15 neighborhood for a bicycle yet that stretch of 16 road is incredibly unsafe. There is a curve that 17 people come around very quickly and you are 18 exposed to traffic coming up behind you before 19 you can connect to Beach Drive which is heavily 20 used by bicyclists, especially on weekends. 21 22 I also use Broad Branch for driving. OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

8 Most frequently from Beach Drive to Brandywine 1 but also, sometimes, to Davenport as an access to 2 the nature center. As a driver, I would be happy 3 to accept a number of restrictions on my ability 4 to travel. 5 I should say, viewing the four options, 6 7 my preference is option four but as all three have, at least, a sidewalk from Soapstone Valley 8 to beach drive, I find them all an improvement 9 over the current system. And the first option, 10 no build, is completely unacceptable. 11 In addition to the actual building 12 structures which I understand would possibly 13 involve purchasing rights of way from private 14 property, I think there are other structures that 15 can be put in place to slow down traffic on the 16 road to make it safer for pedestrian and 17 bicyclist. 18 I would be in favor, even as a driver, be 19 in favor of speed bumps, appropriately designed 20 to allow for the passage of bicyclists without 21 going over a bump. I would be in favor of a 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

9 heavily reduced speed limit, as low as 15 miles 1 per hour. And I would encourage the city to put 2 speed cameras on the road to enforce it. 3 The major conflict I see between 4 bicyclists and drivers is drivers becoming 5 impatient when bicyclists are heading northbound 6 at a slow rate of speed. I think that if there 7 was an enforced speed limit, that was 8 approximating what a bicyclist would do that that 9 would reduce tensions and make for a happier and 10 safer ride for all. Especially considering that 11 the largest danger is that the bicyclists would 12 cause motorist to pass into oncoming traffic. 13 So again, as both a pedestrian user, as a 14 bicycle user and as a driver I am strongly in 15 favor of safer access from Brandywine to Beach 16 Drive and would accept restrictions on my 17 motorist use. 18 Thank you. 19 [WHEREUPON, THE STATEMENT OF CHRISTIAN KLOSSNER 20 WAS CONCLUDED] 21 22 MR. KATZ: My name is Kenneth Katz OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 (202) 898-1108 / Baltimore: (410) 752-3376 Washington: Toll Free: (888) 445-3376

10 and the address is 3411 Fessenden Street, 1 Northwest, 20008. It's actually right behind us, 2 Fessenden Street. 3 THE REPORTER: Please proceed. 4 MR. KATZ: Well I would just like to say, 5 certainly from my point of being a pedestrian, a 6 driver, cyclist and a neighbor I am vastly in 7 favor of alternative four or the idea of 8 alternative four, which does indeed create a safe 9 facility for all travel modes as best as 10 possible. 11 I do think one small addition would be, 12 it's a little odd that there is a one-way bicycle 13 lane proposed which does make sense in terms of 14 geography because that bike lane is for the 15 uphill lane and the direction in which there is 16 no bike lane is for the downhill lane where you 17 would, even on a bike, be going pretty close to 18 the speed limit. 19 However, it just strikes me that perhaps 20 a better idea would be not to have the bike lane 21 at all and to instead have what is a sidewalk 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

```
11
   extended in width by a couple feet and turn that
1
   into a multi-use trail.
2
            But in any case, my belief is that
3
   alternative four will definitely increase use of
4
   neighbors. Just having a safe place to walk and
5
   ride along in Broad Branch will probably bring
6
7
   many, many people into the park who live
   Northwest of where Broad Branch hits Beach Drive
8
   because right now there is no way to get into the
9
   park, except by driving. At least no safe way.
10
   So I think this would be wonderful.
11
            Thank you so much.
12
      [WHEREUPON, THE STATEMENT OF KENNETH KATZ WAS
13
                        CONCLUDED]
14
            MR. CALDWELL: My name is William
15
   Caldwell. My address is 4660 Broad Branch Road,
16
   Northwest.
17
            THE REPORTER: 20008?
18
            MR. CALDWELL: Yes.
19
            THE REPORTER: Please proceed.
20
            MR. CALDWELL: My comment is that I
21
  prefer option one. One of the reasons for that
22
                   OLENDER REPORTING, INC.
     1100 Connecticut Avenue NW, #810, Washington, DC 20036
    Washington: (202) 898-1108 / Baltimore: (410) 752-3376
                 Toll Free: (888) 445-3376
```

12 is that it preserves the character of Broad 1 Branch road as having, sort of a rural feel to 2 it, country road. It's an historic road and it's 3 the edge of the national park. It's really 4 beautiful. I think it should stay that way. 5 It's a nice idea to have sidewalks and 6 bike trails and swales and all that and I don't 7 have any objection to those things except that, 8 in order to do it, it's going to require 9 excavation on the west side. It's going to 10 require cutting down hundreds of trees and 11 building retaining walls, relatively high 12 retaining walls in order to widen the right-of-13 way. And I really don't think that's a good 14 idea. It's going to pretty much destroy the 15 character of the road. And it's certainly an 16 expensive solution so I'm opposed to that. 17 And, I also think that the notion that 18 it's necessary for safety to put up the various 19 retaining walls between the road and the creek is 20 kind of excessive. I don't think that's -- I 21 don't think there really have been many instances 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

13 that, where there have been problems because of 1 2 that. But anyway, I wanted to comment, which is 3 that, one of the reasons that the road is damaged 4 by water is -- the primary reason, and I've seen 5 this for twenty years. It's not because of the 6 7 water coming down from the hillside on the west side onto the road and undercutting the road. 8 It's the, in a heavy rain the water fills Broad 9 Branch and it overflows its banks in some places 10 and it just turns it into a tributary. It just 11 rolls down Broad Branch and that's a very violent 12 flow and that's what damages the road surface. 13 So, your engineering should address how 14 to keep Broad Branch within its banks, at least 15 in the crucial places where there are little 16 bottlenecks where -- gravity -- it has no place 17 to go and it has to flow up onto Broad Branch 18 Road. 19 So that would be my suggestion and I 20 think that's all I have to say. 21 22 Thank you very much. OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

14 [WHEREUPON, WILLIAM CALDWELL RETURNS FOR FURTER 1 COMMENT] 2 MR. CALDWELL: I'd like to amend my 3 remarks just a tad. 4 I do have one further comment and that is 5 that I think the -- there has not been sufficient 6 public notice about this project. Even tonight I 7 kind of expected that there would be a 8 representative from the Department of 9 Transportation that would make a presentation 10 about what the various options are. And I found 11 it quite difficult to get information about each 12 of them, not that the people who are here aren't 13 accessible, they are. But it's a one-on-one 14 situation and it's not an opportunity for the 15 group to hear what's going on, to hear answers. 16 And so, there's very little information that's 17 actually getting out. 18 So I think that does a disservice. I 19 think there should be another meeting. A public 20 meeting where, you know, there are many, many 21 people who are interested in this. They should 22 OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376

15 have the opportunity to hear a coherent 1 presentation of what the three basic options are 2 and to be able to ask questions that everybody 3 can hear so that they -- people don't all think 4 of the same question at the same time. 5 So, that would be really useful and would 6 7 make it possible for people to actually understand what's going on, what the issues are 8 in this project. You know, the last time the 9 Department of Transportation tried to do this, 10 which was 10 or 12 years ago, there was a huge 11 amount of public interest in it. There were 12 hundreds of people going to ANC meetings about it 13 and you shouldn't be surprised if there's a lot 14 of interest in it this time. 15 And I know we're only into the process, 16 it's not over yet. You haven't made your 17 decisions but, people need to know what's going 18 on before you make your decisions so they can 19 have some opportunity to tell you what they think 20 about it and to involve their representatives. 21 22 Thank you. OLENDER REPORTING, INC. 1100 Connecticut Avenue NW, #810, Washington, DC 20036 Washington: (202) 898-1108 / Baltimore: (410) 752-3376 Toll Free: (888) 445-3376
