

# New York Avenue NE Streetscape and Planting Options

## PERENNIALS

● Indicates species that are appropriate for stormwater infrastructure planting areas

*Liriope muscari*  
Big Blue Lilyturf

*Carex* spp.  
Sedge species

*Pennisetum alopecuroides*  
Fountain Grass

*Juncus* spp.  
Rush species

*Ajuga reptans*  
Carpet Bugleweed

*Schizachyrium scoparium*  
Little Bluestem

*Solidago sphacelata*  
Golden Fleece Goldenrod

## DECIDUOUS SHRUBS

● Indicates species that are appropriate for stormwater infrastructure planting areas

*Ilex glabra*  
Inkberry Holly

*Clethra alnifolia* 'Hummingbird'  
Sweet Pepperbush

*Ilex verticillata*  
Winterberry Holly

*Cornus sericea* 'Farrow'  
Red-Osier Dogwood

*Rhus aromatica* 'Gro-Low'  
Fragrant Sumac

*Hypericum calycinum*  
St. John's Wort

## LARGE/SMALL TREES

● Indicates species that are appropriate for stormwater infrastructure planting areas

*Celtis occidentalis*  
Common Hackberry

*Platanus x acerifolia*  
London Planetree

*Tilia americana* 'Redmond'  
Redmond American Linden

*Cercis canadensis*  
Eastern Redbud

*Ostrya virginiana*  
Hophornbeam

## CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN (CPTED)

### CPTED Guidance Encourages Activity in Public Space to Prevent Crime

CPTED Guidance that will be implemented for the New York Avenue Streetscape and Trail Project includes:

- See and Be Seen - Design features that increase visibility and awareness of the users of the streetscape and the trail project
- Lighting - Install lighting that enhances natural surveillance by the user of their surrounding environment
- Eliminate Hiding Areas - Maintain visual sight lines between all users of the streetscape, trail and vehicular roadway so that all users are visible

## STREETSCAPE STANDARDS

### Standard Pavement and Curbs

Brick Banding  
Alternative

Concrete

Exposed Aggregate  
Concrete

Granite Curb

### Standard Furnishings

Standard Lighting

U-Frame  
Bike Racks

Trash Receptacle

Note: All planting and site amenities have been developed in accordance with the DDOT Public Design Manual (July 2011), Maryland Stormwater Design Manual (May 2009), and DDOT Urban Forestry Administration Guidelines.
