

December 28, 2012

I am writing to urge the DC government to take actions to facilitate the continued operations of food trucks. I oppose actions that would unduly burden food trucks or force them to comply with unreasonable regulations governing their ability to operate. In particular, I oppose the proposed "10 foot rule."

I work in the Foggy Bottom area and frequently visit food trucks parked on Virginia Ave. As I understand it, food trucks would not be permitted to park there under the 10 foot rule. Given the popularity of the food trucks, the lack of bricks and mortar food options in the area and the ease of parking nearby, I strongly urge you to take whatever actions necessary to encourage food trucks to continue operating on Virginia Ave.

Food trucks provide a wide variety of affordable lunch options. Please do not take any action that would limit consumer choice.

Thank you.

Andrew Herrup
