

November 8, 2012

As a DC resident and multiple property owner in DC I have to say we need to stop making rules/regs that don't work (for food trucks and for many other things). Please work with the food truck vendors to come up with rules/regs that won't limit their ability to function as the good vendors/businesses they are. They create more small business owners, more jobs, and more low cost food options for residents and employees of this city which is what our city needs! They are not causing any issues functioning the way that they currently do and we enjoy having them here in DC. Thank you.
