Dear Alice,

We are writing to associate ourselves personally with the extensive comments submitted by the Committee of 100. We also are especially concerned about the proposals to expand the area in which special signs can be located and on the establishment of “Designated Entertainment Areas”. We do believe each of these constitutes a serious overreach, and very much hope that that can be corrected before a final draft goes to the Council.

Thanks so much to you and your colleagues for bringing off this meticulous, massive and probably largely thankless effort, a giant step forward in making sense of DCMR’s treatment of signs in our city.

Best wishes for the Holidays,

Ann and Larry Hargrove
