Dear Ms. Kelly, the Residential Action Coalitiond vigorously objects to the proposed sign legislation which asllows the mayor to unilaterally permit special signs in entertainment areas he alone can select. This is a transparent grab by the mayor and the sign industry to eliminate all citizen and council participation. Also unacceptable is the allowance of hi tech graphics as signs. I'm aware of how annoying these have been to the residents near the arena: bright. blinking lights in their apartments being a terrible invasionand eroded their quality of life.

This gives any mayor designate signs in new areas in exchange for campaign contributions. We are experiencing too much corruption as it is and always need citizen and council participation.
