I believe that that would limit food trucks to the extent that 8 out of 10 vending areas would be off limits is a mistake. The food trucks have been a vital, positive influence in the McPherson Square area. To lose them would limit us to the same dull fare that we have had for many years. We would also lose a community that has developed in the park. Please find a means that is fair to the brick and mortar establishments and to the food trucks, that protects the environment and the patrons, that generates income for the city without regulating the trucks out of existence.

Patrick Triano
