

December 16, 2012

I'm writing in support of the District's Food Trucks. They offer a speedy and unique option for residents and commuters. They also encourage new and diverse culinary experiments which can ultimately turn into brick and mortar shops. They also create jobs--several people run the trucks themselves. And these owners use kitchens around the district to prepare their goods. Please keep them rolling!

Thank you for your time and best regards,

Shannon Panuska
