They are an eye sore, My visitors from out of State & other Countries think as I do ,
For our nations Capitol it looks like downtown in a third world country. Blocking the sidewalks,
garbage on the curbs etc. Also the brick and mortar tax paying people get blocked out of
business.

The Mall could have 3 or four food carts on each side of it , But within a constructed shelter
with running water and drains and rest rooms for the tourist. But within the City ,I say NO
Only on sidewalks that are 15 feet deep and Never Never in front of any kind of restaurant.
